

„A real relief, that is what I hoped for.“

„Every child loves the School Health Worker. Unfortunately, I don't have time at my disposal for children with health issues.“

„A School Health Worker, who also supports me with health topics in class.“

Opportunities for every child!

**School Health Workers
in Berlin-Lichtenberg**

Now at your school too!

„I go to a healthy school.“

„If I suffer of stomach ache my way goes direct to the hospital room. There is somebody who cares for me“

„I like the School Health Worker. She always has a sympathetic ear.“

School Health Workers in Berlin-Lichtenberg

Schools constantly face new challenges – full-day offerings, inclusive education and equal health- and education related opportunities.

In particular, health emergency care and preventive health measures are key responsibilities. Internationally and in some German Bundesländer, the employment of School Health Workers is an inherent part of multidisciplinary teams in elementary and secondary schools.

As part of a model project for the provision of School Health Workers, your school has been selected as one of five schools in the district of Berlin-Lichtenberg.

The School Health Worker will conduct the following tasks:

- Emergency care
- Health promotion and prevention
- Early detection of diseases
- Support for children and young people with chronic illness / disabilities
- Contact person and confidant for students with health problems

„Growing up in a healthy school, that is what I always wanted for my child.“

„If there are any health problems during the day, I know that my child is in qualified hands.“
